

**Medical-Legal Partnership Programs in NC**  
**(As of January 2013)**

MLPs operate in a number of locations throughout the state as a variety of legal aid programs partner with a wide range of hospitals and clinics. Each MLP is designed to address the particular needs and capacity of the local partners. However, they all share common components including:

- Basic legal training for health care providers to help them screen and refer patients who may benefit from legal assistance;
- Regular presence of legal staff in clinic settings to conduct outreach to staff and to allow for patients to be screened for eligibility for legal assistance;
- Formal referral mechanisms between medical providers and legal partners; and,
- Direct legal assistance to patients/clients.
